Money Smart Training

**Learn how to manage your money
and avoid dangerous pitfalls.**

Making smart choices with your money

Goodwill Industries is excited to announce our new money management program. The curriculum is based on Goodwill's GoodSense money management curriculum and the FDIC Money Smart training series. Classes are conducted by trained Goodwill staff. Small group or individual classes are offered in five weekly 1 hour sessions, followed by an hour-long individual question & answer session. These classes focus on the basics of money management to educate and empower you to take charge of your personal finances.

The program consists of the following five modules:

Bank On It- an introduction to banking services that will teach you basic banking terms including Deposit, Balance, Withdrawal, Fees and Interest.

Borrowing Basics- introduces you to the concept of credit. You will learn when and how to use credit, the cost of credit, the value of credit and major types of loans.

Check It Out- teaches you how to choose and keep a checking account.

Money Matters- you will learn how to keep track of you money. This module teaches you about personal budgets and how to recognize the benefits of budgeting, track daily spending habits, and prepare and use a budgeting tool.

Pay Yourself First- teaches you the importance of saving money including ways to save money and how money can grow when you save.
